

Math 31B Discussion Syllabus

Joyce Chew

Fall 2021

2C: Tuesday 3:00PM-3:50PM

2D: Thursday 1:00PM-1:50PM

Welcome to discussion for Math 31B: Integration and Infinite Series!

1 TA Contact Information

- Name: Joyce Chew
- Email: joycechew@math.ucla.edu
- Website: <https://joycechew.github.io>
- Office: Mathematical Sciences 3931
- Office hour (Zoom): Wednesday 4:00PM-5:00PM
- In-person office hours by appointment
- Open office hour: Tuesday 7:00PM-8:00PM (31B every other week, calendar here)

I am not available on Sundays, so any communication sent to me late Saturday evening or on Sunday typically will not receive a reply until Monday. Otherwise, if you do not receive an email reply within 24 hours, please ping me again.

2 About Discussion

Discussion will usually open with a warmup problem related to the current lecture material. Then, I may review some relevant concepts and examples, and the rest of the time will be spent with whatever questions or concerns about the material you may have. We may do some additional problems from the textbook if there is time. Every week, I will post notes outlining what was covered in discussion to my website.

Because the lectures for this class are being delivered remotely, discussion is even more of an opportunity to ask questions and solidify your understanding. I am here to help! You can ask me anything pertaining to the course at any time. Chances are, if you have a question, other people have similar questions.

I will post a weekly survey Google form on CCLE. This survey is completely anonymous, but if there are homework questions/topics that you want me to cover in discussion that week, it is very helpful if you could fill out the form by 5pm the day before we meet.

3 COVID-19 Policies

I am grateful that we can hold in-person discussions, and that the university has set in place certain policies to mitigate the health risk to our community. I ask that you comply with these measures at our discussions:

- Masks must be worn over your nose and mouth at all times unless you have an approved exemption from the Center for Accessible Education. If this is the case, please contact me so I can verify that you have the appropriate documentation from the CAE.
- Please do not eat while in discussion, as that would require extended removal of your mask. However, if you need to eat something for medical reasons, you may do so. You may briefly remove your mask to take a drink.
- If you do not properly wear a mask and do not have an approved exemption, I will end the discussion after a warning.
- Everyone must fill out the Symptom Monitoring Online Survey before coming to campus. I will check the dashboard for our class every time we meet to ensure that this is the case.

The room for 2D (Thursday) is equipped to record, but the room for 2C (Tuesday) is *not* equipped to record. Therefore, I will record 2D and make the recordings available on CCLE.
